

Lawn Sprinkler heads water an average of 20 feet in diameter.

Design for 3 heads per zone. And overlap spray pattern slightly.

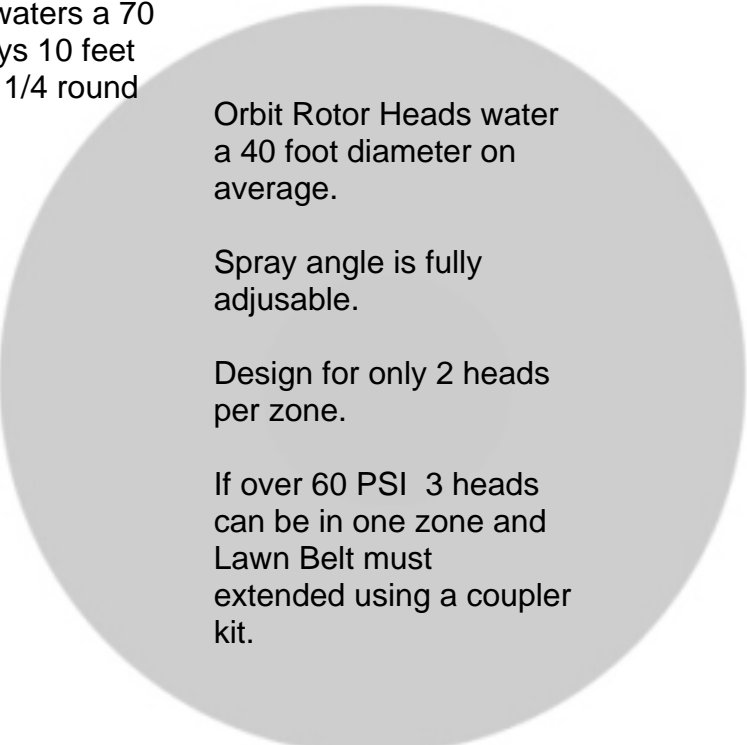

Attach multiple zones to a single spigot using a 4 way distributor.

Garden Border waters a 70 foot strip and spays 10 feet on average with 1/4 round spray patterns.

Orbit Softops water 10 feet on average (just like the Garden Border Heads) but are fully adjustable to any angle.

Orbit Rotor Heads water a 40 foot diameter on average.

Spray angle is fully adjustable.

Design for only 2 heads per zone.

If over 60 PSI 3 heads can be in one zone and Lawn Belt must be extended using a coupler kit.
